**Tuesday,
June 14th
6:30 – 8:30pm**

Location: TBD

Please RSVP to Jennlow@shaw.ca by
Tuesday, 7th

SMART BUT SCATTERED

Executive skills refer to brain-based, cognitive processes that help us regulate behaviour, make decisions and set and achieve goals. Is your child disorganized or forgetful? Do they have trouble getting started on a task or assignment? Is their backpack or room a black-hole where things seem to disappear?

If this sounds familiar please join us for a presentation by Christine Abbot and Shannon Sullivan for concrete ways to understand and help support executive skills.

Cost for this presentation is \$15 per attendee.

(correct change is greatly appreciated)
